599900 FLAME RETARDANT NECK PROTECTION

Non-metal and inherent flame retardant neck protection that provides good protection against exposure of electric arc. PFAS-free fabric, where 50% of the cotton is recycled.

The neck protection also prevents molten metal getting under the collar. It can be 'pulled' up and used as a balaclava which then gives protection to the ears and open skin/hair. To obtain protection to the front of the face, pull up the neck protection from the front. The neck protection can also be worn as a neckerchief and protects against cold.

Size: One size

Quality: 051 - Cantex Light Rib - 56% modacrylic / 19% recycled cotton / 18% cotton / 5% elastic fibre / 2% antistatic, 230 g/m²

OEKO TEX STANDARD 100 2176-340 DTI www.oeko-tex.com

No to PFAS Tranemo
