## 599900 FLAME RETARDANT NECK PROTECTION

**Non-metal and inherent flame retardant neck protection that provides good protection against exposure of electric arc. PFAS-free fabric, where 50% of the cotton is recycled.**

The neck protection also prevents molten metal getting under the collar. It can be 'pulled' up and used as a balaclava which then gives protection to the ears and open skin/hair. To obtain protection to the front of the face, pull up the neck protection from the front. The neck protection can also be worn as a neckerchief and protects against cold.

**Size:** One size

**Quality:** 051 - Cantex Light Rib - 56% modacrylic / 19% recycled cotton / 18% cotton / 5% elastic fibre / 2% antistatic, 230 g/m<sup>2</sup>
